

SOLVING PROBLEMS

Name _____	Date _____
Step 1: What's the problem?	Step 2: Who's got the problem?
<input type="text"/>	<input type="text"/>
Step 3: What happens if the problem goes on?	Step 4: How did you get into this mess?
<input type="text"/>	<input type="text"/>
Step 5: What can you do to solve the problem? (List everything you can think of.)	Step 6: Tell what will happen if you use each solution.
<input type="text"/>	<input type="text"/>
Step 7: Order your list into the most and least attractive solutions.	Step 8: Pick the best solution. Say why you chose it and when you will use it.
Most Attractive	Why
<input type="text"/>	When
Least Attractive	
<input type="text"/>	
Step 9: Predict if you can really carry out each solution.	
<input type="text"/>	
Solution
